

HELIUM BALLOON POLICY

HELIUM BALLOON POLICY AT THE GREATER RICHMOND CONVENTION CENTER

Lighter than air balloons (helium filled) may not be handed out within the facility. They may be tethered to a display for decoration only. Balloons that are released to the ceiling will be removed at the Licensee's (VSAE's) expense.* Costs will include current labor and lift rental rates. **Helium filled mylar (metallic) balloons are prohibited at all times.** Compressed flammable gases may not be stored within the Facility. This includes acetylene, hydrogen, propane and butane.

***If the balloons escape, retrieval fees will be charged to the exhibitor who loses them.**

Please be sure they are tethered well. **VSAE strongly discourages the use of any balloon products.**

If you are bringing in helium balloons, please make advanced financial arrangements with Michelle Catalla at michelle@eameetings.com
